

## **Baby K'tan**

These hybrid wraps are easily the most stylish wraps we have come across. Their unique crossover design makes learning how to use them very easy. The 100% pure cotton fabric content means that baby won't slip down as can happen in spandex and Lycra blended slings. All Baby K'tan Baby Carriers come with an adorable baby beanie to match the carrier.

The Baby K'tan™ Baby Carrier (patent pending) is a 100% natural cotton, unique, ergonomically designed & stylish soft baby carrier. The Baby K'tan is a cross between a sling and a more structured front baby carrier, offering the positions and benefits of both, AND MORE!

Baby K'tan LLC is an environmentally friendly company which manufactures 100% natural cotton baby carriers without chemicals or azo dyes. All carriers are CPSIA Certified and are manufactured under safe conditions. 100% Organic Cotton carriers, certified by GOTS

The Baby K'tan™ Baby Carrier is made entirely of soft, breathable 100% cotton knit fabric that is strong enough to hold a child from birth to 42 lbs. The unique patent pending design consists of two loops of fabric connected with a sliding support band. Parents can stylishly carry their babies in 8 comfortable positions, while freeing up their hands to tend to other tasks or other children. Babies can be snuggled and breastfed in the Cradle and Explore positions. They can also be carried upright, facing in or out, and as they get older, they can be carried on your hip.
